Summary

Dynamic and detail-oriented Front-End Developer with over a year of hands-on experience in building user-centric web applications. Proficient in leveraging cutting-edge technologies and frameworks to create responsive, high-performance, and visually appealing web experiences.

- **Technical Expertise:** Skilled in React.js, Next.js, Redux, and Redux Toolkit for efficient state management and scalable web application development.
- **Web Development:** Strong command of HTML, CSS, and JavaScript, with a proven ability to transform UI/UX designs into functional, user-friendly web interfaces.
- **UI/UX Design:** Expert in using Bootstrap, Tailwind CSS, Material Tailwind, Tailwind Elements, and Framer Motion to ensure cross-browser compatibility and deliver engaging user interactions.
- **Team Collaboration:** Experienced in working with cross-functional teams, consistently delivering high-quality projects on time and within budget.
- **Problem-Solving:** Adept at identifying and resolving complex technical issues, ensuring optimal performance and user satisfaction.

Skills

- **Programming Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Libraries and Frameworks:** React.js, Next.js, Redux, Redux Toolkit, Bootstrap, Tailwind CSS, Material Tailwind, Tailwind Elements, Framer Motion
- **Version Control Systems:** Git, GitHub
- **Soft Skills:** Excellent communication and interpersonal skills, active listener and team player, fast learner, problem-solving and critical thinking abilities, strong time management and organizational skills
- **Other skills:** Debugging, Mobile design, Testing, Animation

Work Experience

- **01/2024:** Freelancer

Developed Responsive Web Applications: Built and maintained responsive and user-friendly web applications for diverse clients using React.js.

UI/UX Implementation: Translated design mock-ups and wireframes into high-quality code, maintaining consistency with design specifications.

Projects:

1. E-market: [GitHub](#) | [live demo](#)

- Developed a Next.js e-commerce application that resulted in a 20% increase in online sales and be more seo friendly.
- Implemented Redux and Redux Toolkit to manage application state and ensure data consistency.
- Engineered a responsive and user-friendly interface using Tailwind CSS & Material Tailwind, enhancing cross-device compatibility and increasing mobile user retention by 40%

2. Movie mania: [GitHub](#) | [live demo](#)

- Movie & TV Show Website (React.js, Redux, Tailwind CSS)
- Developed a comprehensive digital library by curating detailed profiles for over 1,000 movies and TV shows; enhanced user engagement by 40% and increased session duration by 25%.
- Smooth browsing and high performance powered by cutting-edge tech.
- Advanced filtering and sorting, smart recommendations, and shareable content.

3. Dokan shop: [Github](#) | [live demo](#)

- E-commerce Landing Page (HTML, CSS, JavaScript)
- Captivating one-page design crafted with HTML, CSS, and JavaScript.
- Visually appealing layout optimized for conversions.
- Engaging product presentations and clear calls to action.

Education

- **9/7/2022** : Bachelor's degree of Automotive engineering, Damascus University, Syria

Courses

- **3/9/2023:** Frontend development from Goo-web, Cairo, Egypt

Additional Notes

- Seeking a challenging position in a fast-paced and innovative environment.
- Possesses a strong work ethic and a commitment to delivering high-quality results.
- Continuously seeking opportunities to expand knowledge and enhance skillset.
